

Plenary lunch symposium:

New Thoughts About Opioid Analgesia and Chronic Pain

**Saturday, September 29, 2007
12:00-1:30pm**

Speaker: Bill McCarberg, MD

Many advances have occurred in our knowledge of appropriate use of opioids for the treatment of a variety of pain syndromes. This symposium will explore the use of opioids and the development of different compounds to make this class of drugs more effective.

Bill McCarberg, MD is the Founder of the Chronic Pain Management Program for Kaiser Permanente in San Diego. He is president of the Western Pain Society and Assistant Clinical Professor (voluntary) at the University of California at San Diego School of Medicine.

Sponsored by an educational grant from Endo Pharmaceuticals.
